

**INDIAN RIVER COUNTY, FLORIDA
MEMORANDUM**

TO: Jason E. Brown, County Administrator

THROUGH: Dan Russell, Information Technology Director

FROM: Michael Staudt, Manager, IS/GIS Division

DATE: December 17, 2021

SUBJECT: Amendment to 2022 Pictometry Aerial Imagery Contract

DESCRIPTION AND CONDITIONS

On October 22, 2019, the Board of County Commissioners approved a three-year contract with Pictometry International Corporation (a.k.a. EagleView) for the purpose of acquiring high resolution oblique and vertical aerial imagery on an annual basis for the populated eastern half of Indian River County. The first and second of three flights of this contract occurred in January 2020 and January/February 2021 respectively. The third flight is planned for January 2022. The map provided in Attachment 2 provides the area covered by each flight. The contract specifications provide for 3-inch resolution ortho-imagery.

Pictometry Corporation has recently upgraded their imaging systems to acquire higher 2-inch resolution imagery. Pictometry is offering to make this 2-inch resolution imagery product available to Indian River County at no additional cost thru an amendment to the current 2019 contract. Since the 2-inch resolution imagery will provide greater detail and detection capability to the users of the imagery at no additional cost, staff is recommending amending the 2019 contract to obtain the higher resolution imagery product that is now available.

FUNDING

There are no additional expenditures required for this amendment. Funds for the third flight and third year of the project in the amount of \$122,000.00 are available in the Fiscal Year 2021-2022 IT/GIS Division budget; GL account numbers 505-166153 for the imagery and 50510319-035120 for the software items of the agreement.

RECOMMENDATION

Staff recommends the approval of the amendment with Pictometry Corporation as provided in Attachment 1 and requests that the Board of County Commissioners authorize the Chairman to execute and sign the attached amendment.

ATTACHMENTS:

1. Amendment to Agreement dated October 24, 2019 between Pictometry International Corporation (“Pictometry”) and Indian River County, FL (“Customer”).
2. Map – Pictometry Imagery Coverage Map for 355 Square Miles
