

# ATLAS ORGANICS

Dear Himanshu Mehta,

Atlas Organics Indian River, LLC would like to formally request a price increase from \$11.49/ton for processing of yard waste received at the Yard Waste Facility to \$11.83/ton, and from \$12.45/ton for transport and recycling of yard waste to \$12.82/ton. Additionally, the amount rebated to the County for each ton of overs taken for alternative daily cover would increase from \$12.45/ton to \$12.82/ton. The methodology of how Atlas arrived at these values is below:

Atlas' Initial contract price for processing of yard waste is \$11.49/ton. Atlas is utilizing the Consumer Price Index Historical Tables for South – Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W). Using the values for April 2020 and April 2021, Atlas is arriving at a 4.9% increase, multiplied by 75%, arriving at 3.7%. Per Atlas' contract with the County, Atlas is allowed a maximum of 3% per year increase. Using this max, Atlas arrived at \$11.83/ton for processing. The same methodology was used for the recycling rate and the rebate rate. A table showing this math is below:
