

**Indian River County, Florida
Department of Utility Services
Board Memorandum**

Date: February 22, 2021
To: Jason E. Brown, County Administrator
From: Vincent Burke, PE, Director of Utility Services
Prepared By: John M. Boyer, PE, Utilities Engineer
Subject: Work Order No. 5 for Bowman Consulting Group, Ltd., 20-inch Sewer Force Main Relocation – Main Street

Background:

Indian River County Department of Utility Services (IRCDUS) recently discovered that its 20-inch diameter force main south of Main Street in Sebastian has been constructed in the Florida East Coast Railway (FEC) right-of-way. The subject main will need to be relocated from the FEC right-of-way into an existing utility easement along the east side of the rail road. Staff is seeking engineering design plans, specifications, and required permits to support construction.

Analysis:

On April 17, 2018, the Board of County Commissioners (BCC) approved the Continuing Contract Agreement for Professional Services with Bowman Consulting. In accordance with that agreement, Bowman will provide professional services to prepare engineering design plans and specifications, and apply for required permits.

Funding:

Funds for this project are derived from the Utilities operating capital account. The Utilities capital account budget is derived from water and sewer revenues.

Description	Account Number	Amount
Main St FM Relocation	47126836-044699-21519	\$52,823.00

Recommendation:

Staff recommends the Board of County Commissioners approve Work Order No. 5 for Bowman Consulting Group, Ltd., for a lump sum amount of \$52,823.00.
