Kelly,

Thank you for following up on this item. We plan to bring this back to the Board of County Commissioners, likely on September 13th, with a recommendation on the quasi nonprofit issue and any funding impacts that would have. I appreciate the time that you have invested in this as well. If you would like to discuss this further, please let me know.

Dear Jason and team,

Thank you so much for providing me the time to meet with you on 8/10/22. I know your time is important and I do appreciate it. After a thorough search I must admit that I stand corrected. I was not able to find a mandate to provide 988 services despite what I presented to you. While it is disappointing, I must reiterate that 211 provides a vital and critical community and crisis response service. If 211 were not providing these services we believe that the obligation would fall to County government or the Sheriff's office. For this reason we continue to maintain our request for increased funding. We do appreciate Indian River County's ongoing support of our essential services and we hope that we can continue to count on your support and advocacy.

Thank you for your time and your consideration.

Best,

Kelly A Cambron
