CLAIMS ADMINISTRATION SERVICES
PERFORMANCE REVIEWS**

The TPA and IRC agree that Performance Reviews will be conducted after the first year of operations. Each Performance Review will involve Claim File Reviews and an overall Program Management Review. Performance Reviews will be conducted by the Risk Manager, or the designee thereof.

In the Claim File Review process, for each claim file that is reviewed, the reviewer will assign a score from 0 to 100 based upon the criteria outlined in this Attachment B. At the conclusion of reviewing all selected claim files, an average score for all claim files reviewed will be calculated. In the Program Management Review process, a separate single score between 0 and 100 will be calculated.

The average score for the Claim File Reviews will account for 90% of the overall scoring for the Performance Review. The total score for the Program Management Review will account for 10% of the overall scoring for the Performance Review. As an example, if the average WC Claim File Review score is 86 points, and the average Third Party Liability Claim File Review score is 90 points, and the Program Management Review score is 70 points, the total score will be calculated as follows:

Third Party Liability Claim File Review	90 points times 40% weight =	36.0 points
WC Claim File Review average	86 points times 50% weight =	43.0 points
Program Management Review	70 points times 10% weight =	<u>7.0 points</u>
Total Weighted Review Points		86.0 points

The penalties will be based upon the Total Weighted Review Points.

IRC will perform one Performance Review for each annual period of the contract. The following chart outlines the expected review schedule. IRC retains the right, at its sole discretion, to perform such reviews at any time.

Performance Review	Performance Period	Total Weighted Review Points	Penalty
1	Months 1 – 12 of Contract	80	1%
2	Months 13 – 24 of Contract	90	1%
3	Months 25 – 36 of Contract	95	1%
4 *	Months 37 – 48 of Contract	95	1%
5 *	Months 49 – 60 of Contract	95	1%

* If agreement extension authorized by IRC.

Failure to perform at or above expected levels for the Performance Reviews will result in a financial penalty of 1% of the amount that was charged by the TPA for the performance period. Any financial penalties will be credited to future amounts invoiced by the TPA to IRC.

The Performance Reviews will measure objective performance standards which are easily identified and measured. After each Performance Review is performed, the TPA will meet with the IRC Risk Manager and/or designee to discuss initial evaluation results. The TPA will be given an opportunity to factually rebut the initial findings. Thereafter, a final tally of the review results will be prepared.

A minimum Total Weighted Review Points of 80 is expected in the first annual period of the contract. The minimum Total Weighted Review Points is raised to 90 on the second annual period, and 95 for periods thereafter. Failure to meet these average compliance expectations will result in the penalty noted above.

At least 50% of the selected files will have recent (within performance period) dates of occurrence and remaining selected files will have dates of injury more than 12 months prior to the performance period.
