ON FILE IN THE OFFICE OF THE CLERK TO THE BOARD

Community Development Director Stan Boling used a PowerPoint Presentation to explain the history of Chapter 904, Nonconformities. He included the circumstances which led to a proposed amendment to the Nonconformities Ordinance, referring to attached accessory structures, such as screen enclosures.

The Chairman opened the Public Hearing. There were no speakers and the Chairman closed the Public Hearing.

A motion was made by Vice Chairman O'Bryan, seconded by Chairman

Flescher, to adopt Ordinance 2017-013, concerning amendments to its Land Development Regulations (LDR's); providing for amendment to Chapter 904, Nonconformities; by amending Section 904.05 expansion, increase, or change of nonconformities; and by providing for repeal of conflicting provisions; codification; severability; and effective date. The motion carried by the following vote:

B. PUBLIC DISCUSSION ITEMS

- 10.B.1. [17-0988](#)** Request to Speak from Reza Torkaman Regarding Utility Policy on tenant non-payment

Recommended Action:

Attachments: [Request to Speak Form](#)

Reza Torkaman, a resident of the County since 1988 and also a landlord, detailed his dissatisfaction towards the rules of the Utilities Department due to the fact that, as the landlord/property owner, he is responsible for bringing the balance of the water bill to zero prior to the next tenant transferring the account into their name.

Vice Chairman O'Bryan confirmed the issue, but felt that the primary problem stemmed from Mr. Torkaman's tenants who did not transfer the account into their name, making the landlord responsible for not only the base amount of an unpaid water bill, but also the consumption. He recommended that Mr. Torkaman begin signing all new leases a few days in advance of the lease effective date, which would allow the new tenant time to transfer the account into their name, and then release the keys when the account transfer was complete.

County Administrator Jason Brown, Chairman Flescher and Commissioner Adams were all in agreement that Mr. Torkaman would benefit from changing his business procedure.

No Action Taken or Required

- 10.B.2. [17-0996](#)** Request to Speak from Ardra Rigby and Bill Rigby Regarding the Demolition of the Property at 6345 85th Street

Recommended Action: Discussion Item

Attachments: [Request to Speak Form](#)

Ardra Rigby, President, West Wabasso Neighborhood Association, along with

his brother, Bill Rigby, 8465 59th Avenue, requested that the property at 6345 85th Street be pulled from the demolition list. They have requested additional time to get the answers needed regarding transforming the vacant property into a historical museum.

Discussion ensued amongst the Board, Community Development Director Stan Boling and Deputy County Attorney Bill DeBaal, which brought about several concerns, including: 1) Property Ownership. It was reported that the owner of the property was The Estate of William C. Minnis, Jr., and that Sarah Minnis had offered to donate the property; 2) Property Condition. It was agreed that, with the authority of Ms. Minnis, the vacant, abandoned and unsecure structure, if not demolished, needed to be boarded up for public safety concerns; and 3) Tax Liens. It was pointed out that the tax liens have exceeded the value of the property, and that changing ownership of the property would not make the tax liens disappear.

Bill Rigby responded that he had been in contact with the Internal Revenue Service (IRS), in an attempt to reduce the tax lien dollar amount. He also explained that he would like to clean and power wash the inside of the structure prior to boarding it up. Additionally, he confirmed that he had been working on funding options.

County Administrator Jason Brown opposed delaying the demolition, as he felt that there were an abundance of obstacles to overcome.

County Attorney Dylan Reingold expressed sincere concern regarding unauthorized individuals trespassing on the property, due to the fact that the Rigby's are not the property owners. He explained that the Board was not authorizing any such activity.

Vice Chairman O'Bryan, upon checking the Property Appraiser's website, noticed the possibility of a tax deed sale. He suggested tabling the item and returning to the Board for additional discussion in two weeks under Commissioner Zorc's Matters. Prior to the meeting, Ardra or Bill Rigby would be required to provide authorization from Sarah Minnis, along with pictures of the secured building and correspondence with the IRS. Additionally, it was noted that a tax deed sale of the property would discontinue further discussion regarding this matter.

No Action Taken or Required

The Chairman called for a recess at 10:57 a.m., and reconvened the meeting at 11:18

a.m., with Commissioner Solari absent.

Recommended Action: Staff recommends the Board approve advertisement of the amendment to the IRC Code to prohibit illicit discharges into storm sewers. A public hearing on the amendment will be held before the Board of County Commissioners on October 24, 2017.

Attachments: [Staff Report](#)

Deputy County Attorney Bill DeBraal announced an ordinance amendment of Chapter 201 of the Indian River Code, and requested permission to advertise the Public Hearing, which would be held October 24, 2017. He acknowledged that the amendment, which follows an audit performed by the Florida Department of Environmental Protection (DEP), would define future disciplinary actions for illicit discharges into storm sewers, in addition to designating a Code Enforcement Authority.

Public Works Director Rich Szyrka confirmed the disciplinary action currently in effect, and suggested keeping the code enforcement authority in the stormwater department.

Vice Chairman O'Bryan offered suggestions for disciplinary action such as issuing a written notice as the initial warning, and implementing a small fine for the second offense.

A motion was made by Vice Chairman O'Bryan, seconded by Commissioner Zorc, to approve staff's recommendation. The motion carried by the following vote:

14.B.1. [17-1023](#) Request Board Discussion on the Issue of Unmaintained County Roads

Recommended Action: Discussion to Generate Ideas to Address Issue

Attachments: [Commissioner's Memorandum](#)

(Clerk's Note: Item 14.B.1. was heard following Item 14.B.2, and is placed here for continuity.)

Vice Chairman O'Bryan initiated discussion regarding a possible long term policy change regarding unmaintained roads. He reported receiving calls from property owners who were concerned because of potholes and drainage issues, which made it difficult to get in and out of their residences/businesses, to receive deliveries or for emergency vehicles to respond to them. After offering several options, in addition to the idea of a Grading District, he acknowledged that increasing taxes to cover the additional equipment and manpower would be necessary.

Commissioner Adams pointed out that there were approximately 140 miles of unmaintained roads within the County. She felt that the roadways were originally designed to access ditches, canals, cattle or crops, but as agriculture began to decline, property owners sold lots, causing drainage and roadway issues. She suggested taking a comprehensive look at this item, knowing that taxes would need to be increased in order to cover the expenses involved.

Commissioner Zorc requested advice from David Gunter, Indian River Farms Water Conservation District Superintendent, as to how he would solve the issue.

Mr. Gunter, who began by providing history going back to a time when this County was part of St. Lucie County, felt the Public Works Budget would need to be increased. He remembered the Budget was reduced many years ago, which was when he felt that the roads in question stopped being maintained by the County. In addition, he confirmed that the Water Control Districts were prohibited from constructing or maintaining public roadways.

Mr. & Mrs. George Powers, 187 S. Maple Street, Fellsmere, used a PowerPoint Presentation to point out the location of their business at 14115 85th Street, Fellsmere, along with the one mile section of roadway that they would like to have graded in order to keep them in business. He questioned the benefit of the money paid to the drainage district; and offered to pay the County to grade the road twice per year.

Discussion ensued amongst Public Works Director Rich Szpyrka, Vice Chairman O'Bryan, Commissioner Adams and County Administrator Jason Brown regarding grading schedules and the estimated cost per mile, minimum roadway standards, along with agreements that would need to be amended if the County approves maintenance of currently unmaintained roads.

Jason Nunemaker, City of Fellsmere City Manager, voiced his concern regarding current and future drainage issues, as there were undeveloped lots holding water; however, once the lots are developed, the water would be displaced. He offered suggestions for moving forward, and, along with Mr. Gunter, offered his assistance to the Board regarding this matter.

Board consensus was for staff, at a future meeting, to present two options: 1.) to provide a schedule and the cost involved for maintaining all County roads; and 2.) to provide a schedule and the cost involved for maintaining the County roads that are currently unmaintained.

(Clerk's Note: This item was heard prior to Item 14.B.1.)

Indian River State College Mueller Campus Provost Casey Lunceford confirmed

the ongoing collaborated funding efforts, and mentioned the need for a high-tech training facility; in addition to increasing the capacity, as Indian River State College offers a growing number of valuable programs to the Region, noting that the welding program has an enrollment wait list. He also remarked on the possibility of adding Marine and Aviation Engine Manufacturing to the list of programs offered.

Chairman Flescher recalled the community support he had witnessed, and felt that a facility such as this was needed for the college, as well as the community.

A motion was made by Vice Chairman O'Bryan, seconded by Chairman Flescher, to approve Resolution 2017-105, supporting the \$14.8 million capital outlay request of Indian River State College for the Treasure Coast Advanced Manufacturing Center. The motion carried by the following vote:
