DATE: February 10, 2017

SUBJECT: Approval of Resolution Adopting the 2017
Indian River County Emergency Plan for Hazardous Materials.

It is respectfully requested that the information contained herein be given formal consideration by the Board of County Commissioners at the next scheduled meeting.

DESCRIPTION AND CONDITIONS:

On July 12, 2016 the County Commission approved the 2016/2017 State Funded Subgrant Agreement to update Indian River County's Hazards Analysis. The agreement provided adequate funding for the Emergency Management Division to review and modify our Indian River County Emergency Plan for Hazardous Materials. The updated plan was submitted to the Florida Division of Emergency Management for review.

The submitted plan, consisting of over 800 pages, is measured against compliance criteria established by provisions of Section 303 (g) of the Superfund Amendments and Reauthorization Act of 1986 (SARA) and administrative rulings by the State Emergency Response Commission. Per our agreement, the plan is reviewed annually. Currently, Indian River County has 28 agencies which meet the threshold of SARA reporting and review by the Emergency Management Division.

On January 27, 2017, the Emergency Management Division was notified by the Florida Division of Emergency Management that our modifications meet the criteria outlined in our Scope of Work and is therefore approved. The Board of County Commissioners' adoption of this plan finalizes the grant agreement between Indian River County and the Florida Division of Emergency Management.

FUNDING:

This is a 100% funded agreement to update the county's hazards analysis and review/update the Indian River County Emergency Plan for Hazardous Materials. No match is required by Indian River County.

RECOMMENDATION:

Staff recommends approval of the attached Resolution and the 2017 Indian River County Emergency Plan for Hazardous Materials.
