To whom this may concern:

Re: DPS Equipment Services, Inc

This letter is to inform you that Miko Sears, Project Manager for DPS Services, Inc. is a private independent factory certified technician of Walker Process Equipment. DPS Services and Mike Sears have great knowledge and understanding of various water and wastewater treatment equipment, which includes clarifier drives, clarifier components (truss arms, drive cages, sludge manifolds, scum beaches, surface skimmers, flights, and squeegees) as well as trickling filters, rectangular collectors, grit removal equipment.

Please feel free to contact me if there are any questions with DPS Services.

Sincerely,

WALKER PROCESS EQUIPMENT
Division of McNish Corporation

Ed Beverly
After Market Manager
