Please see below email from the Van Antwerp's approving the Draft Mitigation Plan for Well Interference at the Van Antwerp Property, dated April 25, 2018 (and attached). District staff hereby approve the Draft Mitigation Plan for Well Interference at the Van Antwerp Property, dated April 25, 2018 (and attached). The final version of the Plan with Exhibit A will be incorporated into the compliance file for CUP 10524 (item 1329361) once approved by your Board. Thank you for all your hard work in developing this Plan and we look forward to implementation of it!

Thank you,
 Callie Register, P.E.

We hereby agree to the terms of the Mitigation Plan for Well Interference at the Van Antwerp Property as evidence by the attached Draft sent to us by St Johns Water Management District via Callie Register on April 25th 2018.

Sincerely

Frederick W Van Antwerp and
 Florence B Van Antwerp

Hi Fred and Flo, I wanted to get the Plan back to you with the final changes (highlighted below) made to the 2 items we discussed last week:

Item A: The above construction and maintenance items 1-4 will be required, regardless of Owner(s), for as long as the Owner(s) has/have authorization from SJRWMD, by individual permit or general permit by rule, to use groundwater for any agricultural type consumptive use on the Properties. Note the above construction or maintenance items listed in items 1-4 will not be required for Well No. 1 if the Owner(s) of all parcels using Well No. 1 are no longer authorized to use groundwater for any agricultural type consumptive use on those parcels. Similarly, the above construction or maintenance items listed in items 1-4 will not be required for Well No. 6 if the Owner(s) of all parcels using Well No. 6 are no longer authorized to use groundwater for any agricultural type consumptive use on those parcels.

Item K: IRCDUS shall no longer be responsible for this Plan in the event IRCDUS ceases to utilize water from the Hobart wellfield. If a portion of the North (Hobart) wellfield is utilized and IRCDUS demonstrates to SJRWMD that its withdrawals no longer interfere with the Van Antwerp wells through data or other modeling documentation as approved by SJRWMD, this plan shall become null and void. If the plan is deemed to be null and void, IRCDUS shall continue to provide potable water to the owner(s) at the normal County billing rates provided that all federal, state and local regulations are met.

In the attachment, there are editing comments shown and the version still says DRAFT, until we all approve. The District has reviewed and approves of the Plan attached. Please review and email reply to me that you (the Van Antwerp family) approve of the Plan attached. If you have any questions or concerns, please feel free to call me at (321) 863-0011. Thank you again for all your help and patience!
