Subject- 2018-2019 FX Agreement

Maria attached is the new quote for FX services for August 1<sup>st</sup>, 2018 to July 31<sup>st</sup>, 2019. As discussed the FX Services Agreement did go up this year due to the addition of the equipment listed below. This equipment is part of the current IRC P25 migration. The P25 system is more software driven so FX services/support which include the SUMS (Security Update Management Service) updates will be very important going forward. Even more so than it was with the EDACS system which is more hardware driven.

Going forward the FX Agreement will be for the P25 system, the EDACS system will be covered under the same agreement at no charge until the EDACS system is taken out of service.

Also please note that as part the P25 migration more equipment will be added in the next few years that effect the FX Services Agreement pricing.

Respectfully,
