RE: Possible Uses for CARES Act 2.0 to the Citizens of IRC

Should United Way be a sub-grantee to manage some of the CARES Act 2.0 funds to the community, here are some of the areas of need that we propose need funding:

- Mortgage Assistance
- Rental Assistance
- Utility Assistance
- Assistance with critical costs associated with vehicle expenses (i.e., homeless)
- Expansion of broadband to assist with distance learning (e.g. – Fellsmere, rural & Wi-Fi desert areas)
- Continued Mental Health programming implemented as a result of the increase in stress, isolation, depression and anxiety experienced in the community. Areas of need include expanding telemedicine, general public trainings on resiliency and stress management, aligning mental health professionals in assisted living facilities, increased access to Therapists, Counselors, Psychologists, cost of mental health visits, costs of behavioral health prescriptions, etc.)
- Legal assistance to renters and homeowners about to be displaced by landlords and financial institutions.
- Food Transportation (costs of transporting donated goods to food banks & pantries)
- Special supports for children – diapers, formula and wipes
- Child Care Scholarships for up to 2 months for those returning to work or underemployed (150% to 300% of poverty)
- Closing out “approved” CARES Act applications who could not meet the December 30th deadline due to “out of stock”, backordered or delayed services or equipment.
- Staffing support for case management and administrative costs
