Notes:

1. Please read this notice carefully before you access the information contained herein. By accessing these materials, you accept and agree that the information contained herein is confidential and proprietary to, and constitutes valuable trade secrets of, RxBenefits, Inc. and that you and your representatives are prohibited from using or disclosing such information to third parties except in connection with evaluating the services offered by RxBenefits, Inc. In the event you become legally required to disclose such information, whether by applicable law, legal process, public records request, or otherwise, you also agree to give notice to RxBenefits, Inc. to the extent legally permissible. If you do not agree, you must not access or use these materials.
2. The total price improvement value is an estimate and not guaranteed.
3. Standard contract exclusions will apply to the guarantees (i.e. compounds).
4. The analysis considers historical claims and discounts. Adjustments to generic dispensing rates, market events, drug mix and inflation (trend) can affect future drug cost and overall value of price improvements. For example, as generic dispensing rate increases the number of brand claims decrease thus impacting overall rebates.
5. Due to Open Specialty arrangement, specialty costs are estimated.
