

Attachment A

As a Federally Qualified Health Center, Treasure Coast Community Health (TCCH) is qualified to provide safe medical primary care to all people who have been impacted by the public health emergency of COVID-19 in 2020.

TCCH will provide the following services related to Covid-19 testing and treatment:

- PCR Testing (the “Gold Standard” in testing), using nasal swabs
 - In conjunction with LabCorp or Quest Laboratories
 - Utilizing drive through locations (according to volume of patients/supplies) or
 - At one of their 7 medical sites (located in Fellsmere, Sebastian, Gifford, United Against Poverty, 787 37th Street, Central Vero or Oslo Road)
 - For all ages, races and ethnicities regardless of symptoms
 - Positive results reported to Florida Department of Health and person tested

- Rapid (Screening) Testing
 - Upon availability of equipment and testing supplies

- Antibody Testing
 - Blood test; will be drawn at TCCH Medical sites and processed through LabCorp or Quest laboratories, and reported by TCCH.

- Vaccinations
 - Upon approval from the Food & Drug Administration, and subsequent availability
 - Will likely necessitate a medical on-site visit for administration.

- Clinical evaluations by Physicians/ APRNs of individuals with Covid symptoms
 - Mitigation of symptoms and monitoring of concurrent health issues
