Business Development

Industrious, dependable retired professional with excellent communication/organizational skills with proven experience in business development/project coordination seeks challenging position to match my background and experience. I possess the ability to promote and build lasting client relationships by responding to client needs with a focus on customer service and satisfaction. In summary, I have the ability to communicate, facilitate and negotiate to achieve positive results and a "Win-Win" for all concerned.

Community/Economic Development

During the past 35 years, my involvement includes community, economic and project development at the executive director and project manager level with public/public-private partnerships and private sector development requiring strong communication, coordination and organizational skills at all levels. I have developed an understanding of various business finance programs, regional cooperation and building private sector and intergovernmental relationships. This is important in facilitating new industry recruitment and existing business/industry retention and expansion. My most recent responsibilities in community development included City Administrator directed projects and supervising three departments- Planning/Zoning, Building Inspection and Code Enforcement.
