Re: Central Regional WWTF Smith and Loveless Grit Drive and Classifier Replacement – Additional Install Work Needed Proposal

Quote#:081022CP1

Please see the installation proposal listed below which shall be per Environmental Equipment Services, LLC (EES) terms and conditions of sale located at the end of this document.

**Pista Grit Drive and Classifier Replacement Installation Additional Work Required**

Mechanical Installation revealed that the existing plant piping running the wastewater after grit separation from the concentrator back to the Influent channel was beyond repair. The piping literally falls apart when handled that is due to H<sub>2</sub>S corrosion over the life of the installation. The new components required to replace this pipe includes (1) 90 deg bend, (1) tee, gaskets, SS bolt kits multiple pieces of epoxy coated iron piping per chamber.

Your costs for these additional components for both chambers = \$2,000

This proposal also includes 3 man crew time to install the piping, core through the concrete in a new location 12 inches away from the existing discharge, grout over the existing floor penetration and rout the discharge line through the new floor penetration. Pricing Includes tool rental and concrete work

Your costs for this additional mechanical installation on both chambers = \$10,350

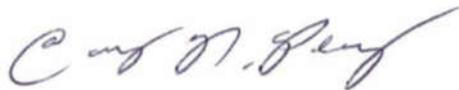

The Electrical installation crews also require an additional site visit to return to conclude their work since the stoppage prevented them from completing the installation. (1) day 2 man crew with travel and expenses.

Your costs for this additional electrical installation services = \$2,500

**Your Total Cost for the Equipment Listed Above, With Installation Included and No Sales  
Tax Is: 14,850.00**
