
Sample Agreement

THIS AGREEMENT is by and between INDIAN RIVER COUNTY, a Political Subdivision of the State of Florida organized and existing under the Laws of the State of Florida, (hereinafter called OWNER) and A Great Fence, LLC (hereinafter called CONTRACTOR). OWNER and CONTRACTOR, in consideration of the mutual covenants hereinafter set forth, agree as follows:

ARTICLE 1 - WORK

1.1 Fencing services provided by the CONTRACTOR for the COUNTY shall be identified in individual Work Orders prepared by the COUNTY, typically in the form of Purchase Orders. Work Orders shall be performed in a timely, efficient, cost effective manner, and in accordance with current professional standards. Work Orders shall include a description of services to be performed; a statement of fees; proposed schedule for compensation and whether compensation is lump sum, maximum amount not-to-exceed, task based, or any combination of the foregoing; a budget establishing the amount of compensation to be paid with sufficient detail so as to identify all of the various elements of costs; a projected schedule for completion of the work to be performed by the CONTRACTOR; and any other additional instructions or provisions relating to the specific Services authorized pursuant to each Work Order that does not conflict with the terms of this Agreement.

1.2 Whenever the term "Work Order" is used herein, it is intended to mean that formal document that is dated; serially numbered; and executed by both the COUNTY and the CONTRACTOR by which the COUNTY accepts CONTRACTOR's proposal for specific services and CONTRACTOR indicates a willingness to perform such specific services for the terms and under the conditions specified in this Agreement. Each Work Order must be fully executed by the COUNTY prior to issuance of the related Notice-to-Proceed.

1.3 Services related to any individual Work Order which would increase, decrease or which are otherwise outside the scope of Services or level of effort contemplated by a Work Order shall be Services for which the CONTRACTOR must obtain the prior written approval of the COUNTY as provided by this Agreement. All terms for the performance of such Services must be agreed upon in a written document prior to any deviation from the terms of a Work Order; and when properly authorized and executed by both the CONTRACTOR and the COUNTY, shall become an amendment to the Work Order or a new Work Order, at the sole option of the COUNTY. A separate Notice-to-Proceed may, at the sole option of the COUNTY, be given for each phase of the services contained in any Work Order hereunder.

1.4 A Work Order shall not give rise to any contractual rights until it meets the foregoing requirements. Each written Notice-to-Proceed and specific Work Order, as approved by the COUNTY, shall be an addendum to this Agreement. Nothing contained in any Work Order shall conflict with the terms of this Agreement, and the terms of this Agreement shall be deemed to be incorporated into each individual Work Order as if fully set forth therein.

1.5 No representation or guarantee is made by Indian River County as to the minimum or maximum dollar value, volume of work, or type of work, if any, that CONTRACTOR will receive during the term of this Agreement.

ARTICLE 2 – TERM

2.1 The term of the agreement is three years with two additional one-year renewals available, subject to contractor performance, mutual agreement and determination that renewal is in the best interest of the County.

¹ - **Vegetation Category to be determined by mutual agreement between the County and Contractor for each job site and can be categorized per linear foot based on site conditions – typical descriptions are provided below:**

- Low - consists of a maintained ground cover that is frequently mowed, weed-eated or sprayed; generally consisting of grasses and not more than 15% shrubby/woody vegetation at approximate fence height and less than 15% cover of soft-tissued vines. Fence sections are easily accessible and do not require vegetation removal for access.
- Moderate – consists of greater than 15% woody/shrubby vegetation, woody vines and sapling trees entangled in fence sections; may be regularly mowed along the perimeter, but has vegetation growing within the fence mesh itself. Trees and other canopy species do not need to be removed and fence removal can be accessed by equipment and/or laborers. Generally cut vegetation can be left on site and can be excluded from fencing material.
- High – consists of fence mesh that is entangled by large amounts of vegetated cover including grasses, woody vines, woody shrubs and/or trees. Fence must be cut out of vegetation and a greater degree of manual/equipment labor is required to remove and/or access both fence and vegetative materials. Site conditions may require vegetation removal outside of fence line in order to remove sections of fence. All cut vegetation must be removed from site along with fencing material.
- **Unit cost includes vegetation and fencing disposal fees**
