

18 June 2025

Mr. Himanshu Mehta, P.E.
Managing Director
Indian River County Solid Waste Disposal District
1325 74th Avenue Southwest
Vero Beach, Florida 32968

Subject: Project Completion Report
Groundwater Monitoring/Reporting and Related Consulting Services, IRC Work Order
No. 6
South Gifford Road Landfill

Dear Mr. Mehta:

Geosyntec Consultants (Geosyntec) is pleased to present to you this project completion report for Geosyntec Project No. FR0766V – Groundwater Monitoring/Reporting and Related Consulting Services for the South Gifford Road Landfill site. This project was completed under Work Order No. 6, authorized on 21 May 2024, pursuant to the *2023 Continuing Contract Agreement for Professional Services* between IRC SWDD and Geosyntec, authorized on 16 May 2023. This report has been prepared as a supplement to our final Invoice No. 628456 dated 5 June 2025, which is attached.

SCOPE OF WORK

The scope of work authorized under Work Order No. 6 addressed the FDEP-required semi-annual groundwater monitoring and reporting for one year (two sampling events and one groundwater monitoring report) and related consulting services. The project was executed under the following phases (tasks): (i) Project Management; (ii) Meetings/Regulatory Interaction; (iii) Annual Pollution Remediation Liabilities Evaluation; (iv) Semi-Annual Sampling Activities; and (v) Data Evaluation and Annual Reporting. Below is a summary of the work by phase that Geosyntec performed under this work authorization.

Phase 1 – Project Management

Under this phase, Geosyntec performed project planning and management responsibilities, such as correspondence with IRC SWDD and FDEP, invoice review and completion, project coordination, and project administration.

Phase 2 – Meetings/Regulatory Interaction

Under this phase, Geosyntec provided ongoing support to IRC SWDD related to interaction and negotiation with FDEP.

Phase 3 – Annual Pollution Remediation Liabilities Evaluation

Under this phase, Geosyntec prepared the annual environmental liability evaluation in response to Governmental Accounting Standards Board Statement No. 49 (GASB No. 49), *Accounting and Financial Reporting for Pollution Remediation Obligations*, which requires the inclusion and calculation of pollution remediation obligations. The report included the evaluation of two sites, South Gifford Road Closed Landfill (4701 41st Street) and Former Premier Citrus – Commander Groves Property (375 82nd Avenue) and was submitted to IRC on 29 October 2024.

Phase 4 – Semi-Annual Sampling Activities

Under this phase, Geosyntec conducted field preparation and groundwater sampling activities for two semi-annual groundwater monitoring events in June and December 2024. Throughout these sampling events, a total of 35 groundwater samples for analysis of volatile organic compounds (VOCs) were collected under this work authorization. Due to efficiencies during the semi-annual groundwater monitoring events, additional budget was available for redevelopment of three monitoring wells in March 2025.

Phase 5 – Data Evaluation and Semi-Annual Reporting

Under this phase, Geosyntec prepared the annual report which documents the June and December 2024 groundwater sampling events. As part of the report preparation, Geosyntec completed database management, data evaluation, trend evaluation, table preparation, and GIS figure preparation. The *2024 Annual Groundwater Monitoring Report (GMR)* was submitted to FDEP on 27 February 2025 and approved on 7 March 2025.

BUDGET

The approved budget for Work Order No. 6 was \$88,617.86. The total invoiced amount, including the final invoice, is \$87,252.55. Geosyntec completed this project below the approved budget.

CLOSURE

Geosyntec appreciates the opportunity to provide services to Indian River County. If you have any questions regarding this correspondence, please feel free to contact the undersigned at 850-483-5101.

Sincerely,

Jordan Poole, E.I. (AL)
Senior Staff Professional

Crystal Wilson, P.G. (FL, AL)

Mr. Himanshu Mehta, P.E.
Managing Director
Indian River County Solid Waste Disposal District
1325 74th Avenue Southwest
Vero Beach, Florida 32968

Subject: Project Management Report and Transmittal of Invoice
South Gifford Road Landfill – Work Order No. 6

Dear Mr. Mehta:

Geosyntec Consultants (Geosyntec) prepared this project management report to address the Plume Groundwater Monitoring project being conducted by Geosyntec on behalf of Indian River County (IRC) Solid Waste Disposal District (SWDD) at the South Gifford Road Landfill site. This report presents: (i) a budget overview for this project; (ii) a summary of activities completed to date; (iii) a discussion of the work reflected on the enclosed invoice; and (iv) recommended actions for the site. The enclosed invoice reflects labor and expenses through 1 June 2025 for work being performed at the South Gifford Road Landfill. Table 1 provides invoicing details for the project.

Work Order No. 6 was approved by IRC on 21 May 2024 and the budget for the project was developed using labor rates that were approved by IRC in 2023 (Continuing Contract Agreement for Consulting Engineering Services dated 16 May 2023).

PROJECT MANAGEMENT SUMMARY

Geosyntec's Project No. FR0766V: Groundwater Monitoring/Reporting and Related Consulting Services (IRC Work Order No. 6)

Budget Overview

Invoice No. 628456 dated 5 June 2025 for \$6,397.64 for Geosyntec project number FR0766V is enclosed. Listed below is a summary of the budget, including invoiced amount, and remaining budget. Geosyntec is within the budget appropriated for this project.

Approved Budget:	\$ 88,617.86
Invoiced Amount to-date:	<u>\$ 87,252.55</u>
Remaining Budget:	\$ 1,365.31

Work Completed to Date

The summer 2024 semi-annual groundwater monitoring event was completed on 25 and 26 June 2024. Geosyntec personnel and a subcontractor mobilized to the site on 5 December 2024 for land clearing activities in preparation for the winter 2024 semi-annual groundwater monitoring event. The winter 2024 semi-annual groundwater monitoring event was completed the week of 9

Mr. Himanshu Mehta, P.E.

18 June 2025

Page 2

December 2024. The 2024 Annual Groundwater Monitoring Report was submitted to FDEP on 27 February 2025 and documents data collected in June and December 2024. The 2024 Annual Groundwater Monitoring Report was approved by FDEP on 7 March 2025. The Annual Pollution Remediation Liabilities Evaluation was submitted to IRC on 29 October 2024. During site reconnaissance on 28 March 2025, Geosyntec personnel noted disturbance adjacent to well GR-MW20B related to frontage landscaping activities along 41st Street, causing the well to be buried. The well was redeveloped to remove any sedimentation from the well casing that was possibly introduced during the construction disturbance. Two additional monitoring wells, GR-MW26B and GR-MW10D, were redeveloped during the same mobilization because they were noted to have elevated turbidity readings (greater than 15 NTUs) during the winter 2024 monitoring event. Well development activities for groundwater monitoring wells GR-MW20B, GR-MW26B, and GR-MW10D were completed on 1 May 2025.

Work Reflected on Enclosed Invoice

Labor and expenses reflected on the enclosed invoice are attributed to:

- Labor indicated as professional services (\$4,766.50) is attributed to project management and administration and groundwater monitoring well development field activities.
- Reimbursable expenses (\$1,488.14) include travel expenses (airfare, hotel, rental car, fuel, and a meal) associated with Geosyntec's March 2025 site visit and costs associated with groundwater monitoring well development field activities.

The remainder of the invoice is associated with a communications fee per the contract.

Recommended Actions

None.

CLOSURE

Geosyntec appreciates the opportunity to provide services to Indian River County. If you have any questions regarding this correspondence, please feel free to contact me at (850) 483-5101.

Sincerely,

Jordan Poole, E.I. (AL)
Senior Staff Professional
