RE: South County Wastewater Treatment Facility (SCWWTF) Reuse Control Panel Replacement -
KHA Bid Review
Bid # 2022020
KHA Job No. 044572065

Terry,

Indian River County Board of County Commissioners publicly advertised the bid documents for the South County Wastewater Treatment Facility (SCWWTF) Reuse Control Panel Replacement project on November 18, 2021 and scheduled a non-mandatory pre-bid meeting, which was held on-site on December 2, 2021 to discuss the project with potential bidders. On December 17, 2021, the bids were publicly opened and read. Indian River County Department of Utility Services (IRCDUS) staff provided Kimley-Horn with electronic copies of the two (2) bids that were received. A bid tabulation was prepared by Kimley-Horn that includes the summary of the total bid amounts for the two (2) bids that were received. The bid amounts for this project are as follows:

Paragon Electric of Vero, Inc.	\$ 606,527.00
Hinterland Group, Inc.	\$ 773,965.00
Engineer's Opinion of Construction Costs	\$ 497,183.05

Kimley-Horn reviewed the bids for completeness with respect to the lowest responsive, responsible bidder. All bid packages were provided by IRCU and reviewed by Kimley-Horn. The results of our review are as follows:

- No math errors were found in all the bids reviewed.
- Upon review of the bid package, it was found that Paragon Electric of Vero, Inc. has submitted the documentation requested by the bid with the lowest bid price.
- Bids were not competitive with the next highest bidder, Hinterland Group, Inc. being 27% higher than the Paragon Electric bid

In October 2021, Kimley-Horn prepared a conceptual cost estimate for IRCDUS to replace the reuse control panel at the SCWWTF. The conceptual cost estimate (subtotal and contingency) was \$497,183.05. The lowest responsive bid from Paragon Electric was 22% more than the Engineer's Opinion of Construction Costs (OPCC). We believe many factors contributed to the elevated bid values, such as:

1. The rapid increase in inflation over the past year (~20%-30%).
2. Policy changes that have greatly impacted pricing of fuel, goods and services
3. Due to the ongoing COVID-19 pandemic, many manufacturers and contractors are losing production time due to sick employees or potential exposures to the virus.
 - a. This lost production time impacts project schedules, requiring elevated costs to perform work short-staffed.
 - b. Significant impacts to the supply chain and availability of materials/equipment.
4. Equipment shortages have led vendors/fabricators to hold their pricing for very limited period of time.

The pandemic coupled with fluctuating market conditions have significantly impacted costs for everything. Construction costs over the past two years have skyrocketed globally, and this project is no exception.

Kimley-Horn has experience working with Paragon Electric on water plant related construction projects. Most recently, Kimley-Horn worked with Paragon Electric for the South Oslo WTP ATS Replacement. Paragon Electric was responsive and finished this particular project on schedule. In summary, we see no reason IRCDUS should not award this project to Paragon Electric. Based on the results of our review, Paragon Electric submitted the lowest responsive, responsible bid for the project.

Should you have any questions or comments, please do not hesitate to contact this office at (561) 840-0258.

Sincerely,

KIMLEY-HORN AND ASSOCIATES, INC.

INDEPENDENT ACCOUNTANT'S REVIEW REPORT

To the Stockholder of
Hinterland Group, Inc.

We have reviewed the accompanying financial statements of Hinterland Group Inc., which comprise the balance sheet as of December 31, 2020, and the related statements of income and retained earnings, and cash flows for the year then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Supplementary Information

The supplementary information included in the Schedule of Uncompleted Contracts and the Schedule of Completed Contracts is presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The supplementary information has been subjected to the review procedures applied in our review of the consolidated and combined financial statements. We are not aware of any material modifications that should be made to the supplementary information. We have not audited the supplementary information and do not express an opinion on such information.

CORPORATE RESUME

DANIEL A. DUKE, III

President

Daniel began his career working on land development projects with his father, and came to realize his passion for the underground industry. In 2006 Daniel III and His father, Daniel Jr, decided to dive into the underground industry full bore and started Hinterland Group out of a small office space in Cocoa, FL. Daniel and his father served as the field crew through the first few years as Hinterland Group developed. Through Hard work and dedication to the best final product possible and customer satisfaction the company has grown exponentially over the years. Daniel has worked on projects of every nature related to the underground industry over the years, including all facets of water, waste water and storm water. Daniel remains a key role player at Hinterland Group and stays involved with all the daily operations. His oversight with all the projects ensures that the final product and customer that HG was built on continue to carry on through every project the company completes.

DANIEL A. DUKE, JR.

Operations

Daniel has Twenty-Seven years of direct experience including various wastewater lift station installations gravity and force main sewer installations. He provides direct daily supervision of superintendents and skilled labor, management of project schedules, asset management and logistics for entire company personnel and equipment fleet.

CHARLES BREIG

Electrical Contractor

Charles has over 40 years of commercial electrical experience through out the state of Florida. He currently holds a Florida Electrical Contractors License (EC13003615). Charles joined the HGI team in June 2006.

JAY B. BREIG

Project Manager/Operations

Jay began working in the waste water industry in 2004 for a clarifier rehabilitation company, and then a full service underground utility company in 2006. He then joined the HG team in early 2008, and since then has been a huge contributing factor to the growth of HG as a company. Jay brought a wealth knowledge of the water and waste water industry to the company and allowed HG to broaden its capabilities as an underground contractor. Jay served as a lead foreman for many years on all of the company's largest and most difficult projects ranging from lift station installs to master pumping stations and neighborhood revitalization projects before moving into a management position. Jay now oversees the construction operations for HG by scheduling all crews, coordinating project startups with project managers, arranging equipment deliveries, communicating daily with crew foreman and superintendents and making sure that all jobs are completed properly, on time and under budget.

RE: Hinterland Group, Inc.

To Whom It May Concern:

The Hartford, through its operating entities, will favorably consider surety bonds to Hinterland Group, Inc. for projects up to \$20,000,000 single and \$100,000,000 aggregate. Our experience with Hinterland Group, Inc. has been excellent, and we highly recommend them to you.

Hartford's decision to issue any bond is conditioned upon acceptable review of contract terms, contract amount, bond forms, and financing for each project as well as other pertinent underwriting information at the time of the request.

Please understand that any arrangement for any bonds is a matter between Hinterland Group, Inc. and Hartford Accident and Indemnity Company and we assume no liability to third parties or you if, for any reason, we do not issue requested bonds.

Hartford Accident and Indemnity Company is licensed and qualified to operate in the State of Florida and listed with the U.S. Department of Treasury Federal Register with an underwriting limitation of \$219,310,000, and has an AM Best Rating of A+.

This letter will expire one hundred and eighty (180) days from the above date.

Very Truly Yours,

Timothy M. Holicky
The Hartford

RE: CERTIFICATE OF QUALIFICATION

Dear Sir/Madam:

The Department of Transportation has qualified your company for the type of work indicated below. Unless your company is notified otherwise, this Certificate of Qualification will expire 6/30/2022. However, the new application is due 4/30/2022.

In accordance with S.337.14 (1) F.S. your next application must be filed within (4) months of the ending date of the applicant's audited annual financial statements.

If your company's maximum capacity has been revised, you can access it by logging into the Contractor Prequalification Application System via the following link:

[HTTPS://fdotwpl.dot.state.fl.us/contractorprequalification/](https://fdotwpl.dot.state.fl.us/contractorprequalification/)

Once logged in, select "View" for the most recently approved application, and then click the "Manage" and "Application Summary" tabs.

FDOT APPROVED WORK CLASSES:

DRAINAGE, ELECTRICAL WORK, Water & Wastewater, Manhole Rehabilitation, Lift Stations, Pipe Lining & Pipe Desilting.

You may apply for a Revised Certificate of Qualification at any time prior to the expiration date of this certificate according to Section 14-22.0041(3), Florida Administrative Code (F.A.C.), by accessing your most recently approved application as shown above and choosing "Update" instead of "View." If certification in additional classes of work is desired, documentation is needed to show that your company has done such work with your own forces and equipment or that experience was gained with another contractor and that you have the necessary equipment for each additional class of work requested.

All prequalified contractors are required by Section 14-22.006(3), F.A.C., to certify their work underway monthly in order to adjust maximum bidding capacity to available bidding capacity. You can find the link to this report at the website shown above.

Sincerely,

Darlene Anderson, for

Alan Autry, Manager
Contracts Administration Office

Sanitary Sewer Remediation	Cleaning and internally lining the existing vitrified clay sanitary sewer gravity collection system. Cured-In-Place Pipe (CIPP) system. The liner system consists of a heat-activated resin-impregnated fabric pipe system. Once cured, the CIPP system will provide a continuous rigid pipe system between manholes. Individual services are to be cut out and sealed to the main line to minimize infiltration around the connections.
