

**INDIAN RIVER COUNTY, FLORIDA
MEMORANDUM**

TO: Jason E. Brown, County Administrator
FROM: Richard B. Szyrka, P.E., Public Works Director
SUBJECT: Administration Complex Buildings A&B Selection of Roof Color
DATE: June 29, 2017

DESCRIPTION AND CONDITIONS

On May 2, 2017 the Board of County Commissioners approved the award of Bid 2017040 - Administration Complex Buildings A & B Roof Replacement. As part of the staff report for approval, staff stated that once the contractor had provided color samples for the roof that staff would return to the Board for consideration and selection of a roof color prior to the contractor obtaining material for the roof.

The contractor has submitted four standard color samples available for the roof. The colors are as follows:

- Surrey Beige
- Colonial Red
- Terra Cotta
- Copper Penny (Additional cost for this color selection)

To keep the same aesthetic look of the existing roof color, Terra Cotta is the closest match to the existing tile roof. However, the other colors provided are compatible with the current color of the building and trim of the building. Staff has provided four colors for consideration by the Board and is requesting that the Board consider the four color samples for the building roof and select a color for use.

FUNDING

No funding is required for this action, unless the Copper Penny color is selected.

RECOMMENDATION

Staff recommends Terra Cotta for the roof color as this color is the closest color to the existing tile roof.
