**Subject:** FW: Noise Update for CEMEX / Vero North

**CAUTION:** This message is from an external source. Please use caution when opening attachments or clicking links.

Kevin: Further follow up to our meeting:

1. Efforts are being made to locate a quieter loadout alarm or one that uses a series of warning lights, rather than noise. Nothing is finalized yet, but CEMEX is working on it.
2. In response to comments made at the meeting that the golfers used the flag at the CEMEX plant as a wind sock before the flag was removed, CEMEX has ordered a replacement flag for the one that basically wore out on top of the silo.

Please pass this information along to your clients.

Best Regards,  
Bruce Barkett
