(1) On February 5, 2002, the Board of County Commissioners adopted a minimum interest rate of 5.75%. This rate is equivalent to the interest rate on County utility revenue bonds. This prevents the County from lending at lower rates than our own borrowing costs. After early payoff of Series 2005 Water & Sewer Revenue bonds in 2015, the maximum interest rate on utility bonds is 5.00%, therefore, on December 15, 2015, the Board of County Commissioners approved decreasing the minimum interest rate to 5.0%. Due to the early payoff of the Series 2009 Water & Sewer Revenue Bonds in 2019, staff is proposing to waive the minimum interest rate, thus tying the County financing interest rate to the prime interest rate annually.

(2) On December 18, 2007, the BCC approved setting this at the minimum rate of 5.75% as opposed to the prime rate of 7.25% in light of current economic conditions.

Note: The County sets a standard interest rate on all financing at the beginning of each calendar year. This rate is equivalent to the prime rate as published on Bloomberg.
