Subject: 2017 Indian River County Health Fair Committee Recognition

The 2017 Indian River County Health Fair was held on June 23, 2017 and was a huge success. Employees, retirees, and dependents insured on our health plan were able to schedule wellness screenings and ultrasound screenings at no cost or reduced costs. Two hundred and eighty-two (282) employees, retirees, and dependents participated in the wellness screening and one hundred and seventy-four (174) participated in the ultrasound screening. In addition to the testing opportunities that were provided, area businesses were invited to showcase their health/wellness products and services that are available to support active and healthy lifestyles in Indian River County, with over fifty-seven (57) vendors participating.

The success of the Health Fair is only possible because of the planning and hard work of the following committee members:

Ann Rankin - BOCC

In addition, Facilities and Parks Division staff members assisted in the preparation and setup of the facilities to hold the event.
