TO: Members of the Board of County Commissioners

DATE: November 10, 2020

SUBJECT: Creation of an Area of Native/Florida Friendly Plants

FROM: Laura Moss  
Commissioner, District 5

---

In partnership with Pelican Island Audubon Society and UF/IFAS Extension, we would like to create an area for Native/Florida Friendly Plants in front of the County Administration Buildings and the existing grass lawn to be removed.

I would appreciate a discussion and the input of my fellow Commissioners regarding this subject.
