ITEM 14.C.2

INDIAN RIVER COUNTY
BOARD OF COUNTY COMMISSIONERS

INTER-OFFICE MEMORANDUM

TO: Members of the Board of County Commissioners

DATE: January 8, 2020

SUBJECT: Discussion on Windsor Reclaimed Water Feasibility Study

FROM: Tim Zorc
Commissioner, District 3 

Discussion Item:

I'd like to discuss the results of Windsor's Reclaimed Water Feasibility Study, as released on December 31, 2019. There may be some confusion about both the quality of reclaimed water and the costs involved in bringing reclaimed water into the Windsor property.

(NOTE: Very late in the preparation of this item, the Utilities Department was notified that the St. Johns River Water Management District had just issued a consumptive water use permit to Windsor [see attached letter]. At this time, I'd like to discuss directing County staff to explore other options, including administratively petitioning the issuance of the permit.)
