State of Florida

Reference: MH Corbin Sole Source

To Whom It May Concern:

This letter is to advise that M.H. Corbin, LLC. is the sole manufacturer and source of the NC350 portable traffic classifier. The NC350 traffic classifier is a small, lightweight, rechargeable, self-contained unit used for lane specific classifying for increased accuracy of counts and distinct vehicle lane identity. The M.H. Corbin traffic classifiers use the patented Vehicle Magnetic Imaging (VMI) technology. This unique technology utilizes the earth's magnetic field to accurately count and classify vehicles.

Jace Chandler & Associates Inc. is the exclusive distributor for M.H. Corbin, LLC. and the patented portable traffic classifying equipment for the State of Florida.

Sincerely,

A handwritten signature in black ink, appearing to read "Maxwell H. Corbin, III". The signature is written in a cursive style with a large, sweeping flourish at the end.

Maxwell H Corbin, III
Vice President

M.H. Corbin, LLC.
