Interests & Experiences

Why are you interested in serving on a board or commission?

I believe the most important challenge to solve within Indian River County is the proper balance between visionary economic development that will provide good, high-paying jobs to the people who live here and ensuring that any new industry is only going to enhance the quality of life our residents expect, preserving the small town charm we all love so much. The EDC is poised to be the perfect group to make such determinations and recommendations in advisement to the Board of County Commissioners, and my service as the President of our Taxpayers Association has put me in a position to provide a valued perspective to the County in making such decisions. I would be eager to lend my abilities to such a body within County government and continue to serve the citizens whom we all love so much.
