

Hurricane Season is June 1 through November 30

**PREPARE
NOW**

At home with time on your hands? Hurricane season is here... so prepare now and relax later!

What should you do **NOW**?

- Trim your trees and remove debris.
- Know if you reside in an evacuation area and the location of local public shelters.
- Inventory and update your disaster supply kit. Include a 3-day supply of water (one gallon per person per day).
- Prepare to secure your home and register for a special needs shelter, if applicable.
- Be sure to include your pets in your emergency plans.

What should you do if there is an imminent threat?

- Listen to news media or NOAA Weather Radio for critical information.
- Turn your refrigerator/freezer to the coldest setting.
- Fill your car's gas tank.
- Prepare for your pets.
- Secure your home.
- Safeguard your important documents and gather your medications.
- Evacuate if told to do so.

If a storm threatens, stay tuned to your local media:

NOAA Weather Radio Government Channel 27
Radio Station WSCF 91.9 FM The Weather Channel
Emergency Management Phone in Weather Line 772 567 2129
