

The Respondent caused conditions determined to be a sanitary nuisance pursuant to Section 386.041(1)(f) as defined in Section 386.01 Florida Statutes by failing to maintain the septic system on the Subject Property leaving the health or life of an individual, or the health or lives of individuals, may be threatened or impaired, or by which or through which, directly or indirectly, disease may be caused.

On January 30, 2023, a representative of the Plaintiff was called to the Subject Property to inspect a reported sanitary nuisance relating to the septic tank. The Plaintiff's representative found a septic system leaking sewage onto the ground's surface. A notice to correct was left with the tenant to provide to the property owner for the verified sanitary nuisance.

Petitioner issued a Notice of Violation on February 3, 2023.

Respondent failed to comply with the Notice of Violation and a hearing was held on April 6, 2023 at which time the Respondent was held in violation for creating a sanitary nuisance pursuant to Florida Statutes Section 386.041(1)(a), (b), (e), and (f), and the Board issued an order dated April 20, 2023.

Respondent hired a septic tank contractor to do an initial pump out, but has not performed any subsequent pump outs.

The Subject Property has remained occupied since May 19, 2023 by tenants without the septic system being repaired until July 7, 2023.

Respondent failed to comply with the Board's April 20, 2023 and June 8, 2023 orders until the sanitary nuisances was abated on or about July 7, 2023.

Respondent violated nearly every other provision of the April 20, 2023 and June 8, 2023 order by declining to perform daily pump outs in violation of the April 20th order and maintaining the residence occupied in violation of the June 8th order.
