Re: Hearing Titled "Examining Tax-Exempt Private Activity Bonds for All Aboard Florida's
Brightline Passenger Rail System"

Dear Representative Mast:

On behalf of the Board of County Commissioners, please accept our sincere thanks and appreciation for participating in the most recent U.S. House Subcommittee on Government Operations hearing titled "Examining Tax-Exempt Private Activity Bonds for All Aboard Florida's Brightline Passenger Rail System."

The adverse safety and financial impacts of the Brightline service are very important to the citizens of our community as well as the citizens along the Treasure Coast of Florida. Thank you for your continued effort to express and address our joint concerns about the Brightline project, and for continuing to inquire about the legitimacy of the two separate allocations of private activity bonds that were made by the United States Department of Transportation to All Aboard Florida.

If I can be of assistance in any way, or should you need additional information about this matter, please contact me at (772) 226-1441.

Sincerely,

Peter D. O'Bryan
Chairman
Indian River County Board of County Commissioners
