Bob,

After careful review of the proposed ordinance in comparison to the existing one, I recommend the Commission consider additional protective measures for any dog or cat restrained between 5:00 pm and 9:00 am (paragraph C), since there will likely be no supervision. Those measures are:

- protection from other domestic animals (cannot retreat)
- shelter from the elements (paragraph "e" prohibits restraining during severe weather, but weather is unpredictable)
- water supply that cannot be tipped over

Hope this helps and I am open to further discussion if necessary. My direct line is 646-6310 and my cell is 913-1979.

Subject: dog leash statute

Gentlemen;

Please find attached dog leash statute.

I would appreciate your comments on the possibility of such an ordinance in Indian River County. The issue should come before the BCC at our September 18th meeting.

Have a great week!
