## Interests & Experiences

### Why are you interested in serving on a board or commission?

---

The subject of land value associated with ecosystem services has been the focus of my entire career. That career began as a fisheries biologist with the U.S. Fish and Wildlife Service in Vero Beach, during which I was charged with evaluating habitat, and continued through positions as both a formal and an informal educator to children and adults. My interest in this particular panel is because I believe I can add important considerations to the discussions.
