

December 20, 2016

Mr. Jason Brown, County Administrator  
1801 27<sup>th</sup> Street  
Vero Beach, FL 32960

Dear Mr. Brown,

As you know our dunes sustained significant damage as a result of Hurricane Matthew and therefore, the Town of Orchid plans to complete a dune repair project. This project is being done in accordance with Indian River County Field Permit Number IR-17-CO No. 1, pursuant to the Florida Department of Environmental Protection Emergency Final Order – OGC No 16-1319. The scope of the project is to place up to 16,500 cubic yards of sand along Orchid to replace a portion of our lost dunes.

As Orchid no longer has an access point to bring in sand to the beach, the Town respectfully asks your permission to use the access at Golden Sands Beach Park. We would like to begin the project immediately and have it completed no later than February 28, 2017. To avoid potential conflicts, use of the access would be coordinated with the County's proposed dune repair project at Golden Sands Beach Park.

The Town of Orchid's beach is part of the Sector 3 which is an engineered beach. The project undertaken by Indian River County for the emergency dune repair has provisions in County Bid # 2017.018 that allows Orchid to obtain the services of the successful bidder for the repair of our dunes, Co-Operative Purchasing (page 7 of 41). It is our understanding that if the Town were to become eligible for the reimbursement of its project costs from FEMA there would need to be a Memo of Agreement (MOA) between the Town and the County allowing the Town to use the Counties procured contract. We appreciate the Counties assistance in previous beach management programs and respectfully request the development of a MOA between the County and Town.

Should you have any questions or would like to discuss this matter further, please feel free to contact me at (772) 581-2770 or email me at [townmanager@townoforchid.com](mailto:townmanager@townoforchid.com).

As our ability to move forward with this project hinges on access, I would appreciate your response as soon as possible.

Sincerely,

Noah M. Powers  
Town Manager

**Cc:** 'Hart, Paul'  
**Subject:** Disney's Vero Beach Resort - Dune Repair Project - Wabasso Beach Access use Agreement

James:

On behalf of Disney's Vero Beach Resort, we are requesting construction access through the Wabasso County Beach Park. We expect to coordinate the Disney's Vero Beach Resort Repair project with the County Dune Repair project to minimize interruption to the County's use of the park.

Disney's Vero Beach Resort staff will need time to review the access agreement prior to the agreement being signed by Disney's Vero Beach Resort. Please contact me with any questions regarding this request.

Regards,  
Steve

**Subject:** Baytree and Marbrisa Request for County beach park access

James:

On behalf of the Baytree Condominium Association (BCA) and the Marbrisa Homeowners Association (MHOA), we are requesting the use of the county beach park, known as Sea Grape Trail, for construction access associated with the proposed Baytree Emergency Dune Repair Project and Marbrisa Emergency Dune Repair Project.

The project construction date is uncertain, but is expected to occur over a two week period beginning possibly in late January and extending through February of 2017.

As you are aware, we have included the Indian River County dune material specifications as part of our project specifications. Work will be performed under the Emergency Permit issued separately for BCA and MHOA by your office under the authorization of the state.

Please contact me with any questions.

Kind regards,  
Steve
