

**Indian River County, Florida
Department of Utility Services
Board Memorandum**

Date: March 31, 2020

To: Jason E. Brown, County Administrator

From: Vincent Burke, PE, Director of Utility Services

Prepared By: John M. Boyer, PE, Utilities Engineer

Subject: Utility Work by Highway Contractor Master Agreement with FDOT
Utility Relocations – I-95 & Oslo Road Interchange
FDOT Project #413048

Background:

Florida Department of Transportation (FDOT) is planning to construct a new interchange along I-95 at Oslo Road. The County's existing water, sewer and reuse mains in the project area will be relocated as part of the roadway construction. The FDOT and Indian River County Department of Utility Services (IRCDUS) will thus enter into a master agreement for the construction of utilities by the FDOT contractor. The FDOT will provide a utility relocation cost estimate at a later date; it is anticipated that some of the utility relocation cost will be paid by FDOT. Per Section 3c of the Agreement IRCDUS may accept or reject the FDOT cost proposal.

The County Attorney has determined the agreement should be signed by the Chairman of the Board of County Commissioners.

Funding:

No funding is required at this time.

Recommendation:

Staff recommends the Chairman of the Board of County Commissioners executes the Florida Department of Transportation (FDOT) – Utility Work by Highway Contractor Master Agreement for FDOT Project #413048 – I-95 and Oslo Road Interchange.

Attachment(s):

1. FDOT - Utility Work by Highway Contractor Master Agreement.
