Indian River County Board of County Commissioners
1801 27th St.
Vero Beach, FL 32960

Dear Commissioners:

The Indian River Neighborhood enthusiastically endorses Pelican Island Audubon's plan to install native gardens at the Building A entrance of the County Administration Building. Pelican Island Audubon will provide the funds for a professional landscape architect as well as the plants.

Water conservation and reducing pollution of the Indian River Lagoon are missions of our organization. The use of native plants in our landscape as a substitute for grass lawns helps to accomplish both of these missions.

Sincerely,

Dan Lamson, Executive Director
Indian River Neighborhood Association
