Himanshu

Aqua Clean Environmental is pleased to provide the following quotation concerning the disposal of your leachate at our Tampa facility.

Aqua Clean is a water treatment facility that provides total turnkey operations if needed.

**Project Understanding**

Indian River County has leachate that they need disposal of. A sample was obtained. 2 loads per day is the estimated quantity. Indian River would supply all hoses and fittings to pump into tankers. Indian River would supply the pumping system to load the tankers

**Quotation**

Indian River would have to supply a pump if Aqua Clean hauls that can load a tanker (6000 gallons) in under 30 minutes

**Disposal**

Water delivered to Aqua Clean Tampa

\$0.10 per gallon (water only)

If solids should be delivered they would be surcharged at \$0.60 per gallon

**Transportation**

If Aqua Clean should haul cost to transport would be \$0.11 per gallon. (6000 gallon minimum)

This quotation is based on the chemistry of the water provided

Aqua Clean appreciates this opportunity and if you should have any questions feel free to contact the undersigned at

863-712-6631

Sincerely

Robert Torok
