INDIAN RIVER COUNTY, FLORIDA
DEPARTMENT OF EMERGENCY SERVICES
M E M O R A N D U M

CONSENT

TO: The Honorable Board of County Commissioners

THROUGH: John A. Titkanich, Jr., County Administrator
David Johnson, Director of Emergency Services
Ryan Lloyd, Deputy Director of Emergency Services

FROM: Erin Reyes, Emergency Management Planner
Department of Emergency Services

DATE: November 7, 2024

SUBJECT: Approval of Contract for WebEOC Incident Management Software

It is respectfully requested that the information contained herein be given formal consideration by the Board of County Commissioners at the next scheduled meeting.

DESCRIPTION AND CONDITIONS:

On April 21, 2015, the Board of County Commissioners authorized the acquisition of WebEOC Incident Management Software, which is a vital component of Indian River County's Emergency Management (IRC EM) operations. WebEOC is a web-based, user-friendly system for managing incidents and events inside the Emergency Operations Center (EOC) during activations. Additionally, it serves a broad range of daily operational functions, including compliance tracking and other administrative tasks.

In past years, IRC EM has funded WebEOC. Now that WebEOC is utilized by the majority of Florida counties, it is available for use directly through a State of Florida contract at no cost to the individual county. Transitioning to this state contract will allow IRC EM to allocate Federal Emergency Management Performance Grant (EMPG) funding towards other capability improvement projects and provide premium features-products that are not accessible under the existing WebEOC Agreement. This change offers a significant opportunity for operational improvement.

FUNDING:

No county funding is required for this item.

RECOMMENDATION:

Staff recommends that the Board of County Commissioners authorize and sign the attached WebEOC Subscription Agreement for WebEOC incident management software.

ATTACHMENTS:

1. Two (2) Original WebEOC Subscription Agreements
