**FROM:** Commissioner Deryl Loar

**Discussion Item:**

At the September 10, 2024 Board of County Commission meeting, the County Administrator provided the members of the Board with an objective overview of his tenure that included his achievements, obstacles, and future vision. The Board unanimously agreed that the County Administrator and County Attorney would return to provide quarterly progress reports beginning with the December 03, 2024, Board of County Commissioners meeting.

At this time, I am requesting an update from both John Titkanich, County Administrator and Jennifer Shuler, County Attorney regarding their achievements, obstacles and future vision.

I am also requesting that my fellow Commissioners provide their input into this discussion.
