

MEMORANDUM

TO: Jason E. Brown, County Administrator

FROM: Richard B. Szyrka, P.E., Public Works Director

SUBJECT: Florida Department of Transportation (FDOT) Maintenance Memorandum of Agreement (MMOA) for Oslo Road and I-95 Interchange Construction
Financial Project No. 413048-2

DATE: October 24, 2022

DESCRIPTION AND CONDITIONS

The Florida Department of Transportation is in the final stages of design for the Oslo Road and I-95 Interchange project and is preparing to move the project forward for construction in 2023.

Florida Department of Transportation (FDOT) requires that the local agency governing board approve a resolution accepting the attached Maintenance Memorandum of Agreement (MMOA) outlining conditions for the acceptance and maintenance of the project after construction is complete.

The attached MMOA is for the Florida Department of Transportation interchange project at Oslo Road and I-95, which includes off-system improvements for the relocation of 82nd Avenue, cul-de-sac construction on 86th Avenue SW, construction of a paved roadway for 13th Street SW between 86th and 90th Avenues, drainage improvements, reconstruction/relocation of existing roadways, sidewalks, curb ramps, pedestrian crossings, and other related improvements. Once the project has been constructed by FDOT and the final acceptance process has been completed, the County will then be responsible for the maintenance of all “off system” improvements associated with the project. The County will not be responsible for maintaining the limited access right-of-way existing or acquired, of I-95.

The County will be responsible to improve 90th Avenue from the newly construction 13th Street SW to Oslo Road and from 90th Avenue east to the termination of the interchange project. On September 13, 2022 the Board Approved Work Order #54 with Kimley-Horn to begin design of the roadway segment.

FUNDING

Once the project is complete and accepted by Indian River County, the maintenance expenses of the “off-system” roadways will be included in the Public Works Road and Bridge budget.

RECOMMENDATIONS

Staff recommends the Board of County Commissioners approve the Authorizing Resolution for acceptance of the MMOA and authorize the Chairman to execute the same.
