

RESUME Robert C. Adair, Jr.

Mr. Adair is the Executive Director and President for the Florida Research Center for Agricultural Sustainability, Inc. (FlaRes) which was established in December 2003. FlaRes is a private, nonprofit agricultural research and education organization that is a leader in developing and promoting sustainable agricultural practices. Mr. Adair has an extensive background in agricultural research and sustainable agriculture as well as experience in citrus production, biochemistry and farming. His diverse background has proven most useful in the development of the Sustainable Citrus Program (SCP), an integrated agricultural system utilizing a combination of Best Management Practices (BMPs) and Integrated Pest Management (IPM) methods in conjunction with sustainable agricultural practices tested and developed at FlaRes. Formerly he served as the Citrus Coordinator for 707 acres of citrus groves using the SCP at the U.S. Fish & Wildlife's Merritt Island National Wildlife Refuge in Titusville, Florida. His research projects have been funded by the USDA, Florida's Dept. of Community Affairs, University of Florida, U.S. Fish & Wildlife Service, Florida Citrus Production Research Advisory Council, CRDF, IR-4 Biopesticide and Organic Support Program and from the private industry sector. He has published numerous scientific papers and has developed: a sustainable citrus program, low-rate herbicide program, two citrus BMPs, and patented biorational pesticide products for citrus. He is a frequent speaker at grower meetings for Florida's citrus industry and community. Mr. Adair is actively involved in leadership roles with several agricultural organizations and serves on numerous agricultural related boards.

Professional Awards, Offices, and Activities:

Chairman (2005-2012), Indian River County Agriculture Advisory Committee, 2003- Present.

Florida State Horticultural Society, Board Member-at-large. 2013-2018.

Elected Official- Supervisor and Vice-Chairman 2011-Present, Indian River Soil and Water Conservation District. Supervisor from January 1998-Present.

Appointed to Fla. Dept. of Ag. & Consumer Services' Fertilizer Technical Council, 2011-2013.

Recipient of the 1995 and 2010 President's Industry Award presented by the Florida State Horticultural Society.

Recipient of the Florida State Horticultural Society's "Best Paper in the Citrus Section 2009" for a paper entitled "Demonstration of a Sustainable Approach to Citriculture within a National Wildlife Refuge in the Indian River Area" published in Vol. 122 of the Proceedings of the Florida State Horticultural Society, June 4, 2010, Crystal River, FL.
