EAI is the selected consultant for professional environmental services related to the County's Habitat Conservation Plan for Nesting Sea Turtles (HCP).

The HCP requires the County to coordinate on-going countywide sea turtle nest monitoring annually from March 1 – October 31.

These 8.2 miles represent the portions of Indian River County's beaches that are not currently required under a beach construction permit to monitor for sea turtle nesting activity.

Work Order No. 4 services will be performed by the consultant at a fixed rate cost not to exceed \$144,014.50 for sea turtle monitoring and reporting.
