The roofing industry is currently experiencing price volatility with steel and other roofing products. Because of the market fluctuations, the prices of these products are subject to sudden, significant changes and firm prices cannot be obtained from suppliers. If there is an increase in the price of roofing products charged to the contractors subsequent to making this proposal/contract, the price set forth in this proposal/contract shall be increased to reflect the additional cost to the contractor. Contractor will submit written documentation of the increased charges.
