Interests & Experiences

Why are you interested in serving on a board or commission?

With 20 years of energy consulting experience, I have worked closely with agribusiness owners, utilities and commercial/industrial stakeholders to deliver sustainable and economically viable projects. My background includes navigating regulatory landscapes, aligning priorities and implementing solutions that balance productivity and growth. This experience positions me to bring a results-driven, collaborative approach ensuring local initiatives benefit from our commitment to the community's future. We have been fortunate to travel the last several years and look forward to giving back to this community where our closest friends and families have called this home the last several years.
